

SPECIALISTS IN THE HIGH VOLTAGE INDUSTRY

HEALTH & SAFETY POLICY

Our Mission

Techcorp Services believes that all injuries are avoidable, and that preventing harm is critical to a successful and sustainable business with a happy and health workforce.

The goal is of no injury in the work place, to achieve this vision, Techcorp Services sets clear expectations, responsibilities and accountabilities, continual promotion and improvement of safe work practices, identification and control of workplace hazards, and the commitment to safety of each and every person involved in our working environment.

Core Objectives

Risk Management

Ensure safety standards, practices and procedures are developed, implemented and followed
Be vigilant in identifying workplace hazards, reviewing incidents, trends and pro-actively managing workplace health and safety

Comply with all statutory requirements and industry standards

Resource Management

Ensure that Employees, Contractors, Customers and Visitors understand their responsibilities with respect to Health and Safety

Ensure the required resources, facilities, plant, tools and equipment are available for people to work safely

Ensure the necessary training, instruction and supervision is provided to all personnel

Consultation

Engage, consult and communicate with all stakeholders to build a united commitment to ongoing health and safety improvements

Continual Improvement

Facilitate continual improvement through the setting of measurable objectives and targets
Ensure ongoing monitoring, maintenance, auditing and reviewing of health and safety performance and management systems

Health and Safety is the responsibility of all our Employees, Contractors and Visitors.
