

SPECIALISTS IN THE HIGH VOLTAGE INDUSTRY

ENVIRONMENTAL POLICY

Our Mission

Techcorp Services is dedicated to protecting human health, natural resources and the local and global environment.

The goal is to integrate environmental management into our everyday operations, improve our environmental efficiency and help our customers reduce their carbon footprint through improving their plant and equipment's operation and functionality.

Core Objectives

Risk Management

Ensure environmental standards, practices and procedures are developed, implemented and followed
Be vigilant in environmental hazard identification, reviewing incidents, trends and proactively managing workplace environmental impacts
Comply with all statutory requirements and industry standards

Resource Management

Ensure that Employees, Contractors, Customers and Visitors understand their responsibilities with respect to their environmental impact
Manage our activities and improve resource consumption efficiency and minimise waste generation
Ensure the necessary training, instruction and supervision is provided to all personnel

Consultation

Engage, consult and communicate with all stakeholders to build a united commitment to reduce our environmental impact

Continual Improvement

Facilitate continual improvement through the setting of measurable objectives and targets
Ensure ongoing monitoring, maintenance, auditing and reviewing of our environmental impact and management systems

Our environmental impact is the responsibility of all our Employees, Contractors and Visitors.
